## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-4, 10-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 10 are incorrect as no rotation is disclosed, such movement requiring an axis or central point. The disclosure is to sliding movement along an arcuate track. See for example the non-circular nature of the disclosed track 205, precluding an axis or central point.

Claims 4 and 10 are apparently incorrect as page 4, lines 6-7 specifically state that the window can be either stowed or closed when the front roof panel is closed or vented or partially retracted, the latter two positions being opened positions.

### *Claim Rejections - 35 USC § 102*

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-2, 4, 10-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Benedetto et al..

Art Unit: 3612

Benedetto et al. has roof panel 18 and back window 19, slidably mountable at 26a and 24a, respectively. Benedetto et al. has mechanism 22a,22b as a pair of links forming a four bar mechanism. The top portion outward rotation is seen in figure 3. The window rotates and slides (at 24a) into the stowed position.

As to claims 4 and 10, the window can be in the stowed position when the roof panel is opened.

***Allowable Subject Matter***

5. Claims 5-9 are allowed.
6. Claims 3,12-17 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

***Conclusion***

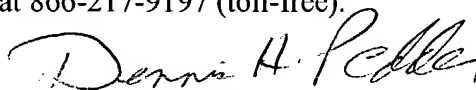

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Webasto teaches double bulb seals. Varner, cited by applicant, shows another rear window that pivots outwardly at start of motion and is slidably mounted to the vehicle.
